

A decorative border of stylized, overlapping floral and leaf motifs in a light gray color, framing the central text. The motifs are intricate, with detailed vein patterns and scalloped edges.

Anesthesia[®]

The luxurious

Anesthesia®

Anesthesia brand is one of the most highly recommended and top selling contact lenses brands available worldwide.

In this catalogue we will be introducing the new collection of Anesthesia lenses consisting of very comfortable 12 different colours which allows oxygen to flow through the lenses leading to a healthier looking eyes. Our colored contact lenses are made with natural design and amazing shades capable of transforming even the darkest eyes into light sea tones. Not only are the shades unisex, they also display a sense of beauty and luxury to whoever wears them.

Why is Anesthesia the best brand for you?

Anesthesia® contact lenses is one of very few brands worldwide offering colors in an astigmatic range.

Anesthesia® lenses are complaint with ISO and International Medical Standards, carrying CE mark and are FDA approved.

Anesthesia® lenses use the latest "Sandwiching Technology" that is carefully engineered to make colored lenses protect the eye from being affected by the colour thus guaranteeing comfort and health of the eyes.

Anesthesia® lenses augment hydrogen bonding between water and the lens material, therefore, retaining the maximum amount of moisture throughout their use, and guaranteed to protect your eyes from harmful UV light.

Anesthesia® contact lenses are perfect for those who want a natural change in eye colour, Even Dark eyes are covered amazingly well.
